

Criteria for Support

- COM DEV will support organizations that can demonstrate their effectiveness at their stated goals, are well administered and financially stable.
- Contributions are restricted to organizations and events local to COM DEV operations.
- COM DEV will not sponsor political or religious organizations or initiatives through the corporate donations program.
- Due to volume, some requests that meet all the criteria outlined in the policy may be turned down due to limited budget.
- If approved, COM DEV will generally provide one contribution per organization per year.
- Annual, ongoing support should not be assumed.
- The amount of money that an organization or event receives is evaluated on a case-by-case basis.
- When determining eligibility and amount of donation, COM DEV will consider the following: the sponsorship opportunity, degree of impact on the community, the relevance to COM DEV's strategic interests and its alignment to COM DEV's corporate philanthropy philosophy outlined on the webpage.
